

Stop Payment Request

Stop payment procedures allow an employee to request a replacement for a check never received, lost or destroyed. Once a stop payment is requested, the original check cannot be cashed. If the check is found after this request has been submitted, promptly return it to Trion Solutions, Inc.

I request that you stop payment on the following check:

Payee Name: _____

Client Name: _____ Check Number (if known): _____

Check Date: _____ Net Amount: _____

Notice to Employee

My signature below represents my knowledge and approval to deduct \$35.00 for the stop payment fee. If I choose to enroll in direct deposit and have completed a Direct Deposit Authorization form, the stop payment fee will be reduced to \$15.00. A replacement check will be issued 24 hours after the stop has been confirmed.

If the above referenced check is cashed or negotiated by me after the request to stop payment, the maker of such check will assume that I cashed it with intent to defraud. The check and all other available information relating to this incident may be delivered to the proper authorities for criminal prosecution.

I authorize Trion Solutions, Inc. to deduct from any future payments, within state and federal regulations, all monies or applicable fees in the event the original and replacement checks are both cashed.
